

## 264115F, Captive Interface Shear Bolt Wedge Connector, Small Series

By Burndy  
Catalog # 264115F

CPI Aluminum Taps are designed for use as a permanent connection for aluminum and copper conductors. CPI wedge connectors use high strength aluminum alloy, pure aluminum and a unique shear head bolt for a mechanically strong, electrically conductive and easy to install connection. The new Captive Interface is now "held" by the connector to facilitate installation and eliminate the risk of the interface falling. The Captive Interface also allows for conductor side entry which simplifies the installation.

### Features

Excellent option for emergency storm restoration

### General

Catalog Number 264115F  
UPC 621945685253

### Conductor Related

Conductor Range Main Conductor: 3/0 ACSR, 4/0, 250 AAC (.502" - .574")  
Tap: 4/0, 250 AAC (.522" - .574")

### Logistics

Carton Quantity 50
