

PRODUCT:

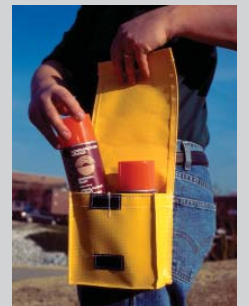

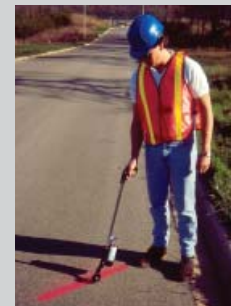

MARKING PAINTS

MARKING PAINTS

VARIOUS
COLORS

THE BASICS:

- MARKING PAINTS contain high solids formulation for bold, bright, visible marking thus reducing cut cables, service interruptions, and power outages.
- Highly pigmented industrial solids have been filtered through exclusive 50 micron filters for non-clogging, trouble-free spraying. One-coat coverage and our spray-through cap allow for inverted painting ease.
- Fast-drying, high-solids formula penetrates and adheres to hot surfaces such as concrete, brick, pavement, and asphalt.
- Convenient spray-through cap and non-clogging tip.
- VOC compliant, lead-free, and biodegradable.
- Both APWA and fluorescent colors are available in water, solvent, and temporary based formulations.
- Use with our Paint Applicator (4311) or Paint Pistol (4314) that are constructed of durable, rugged plastic and light-weight aluminum that feature a comfortable pistol grip for easy handling and marking.
- Always be prepared with our convenient Can Holster (70604) that easily attaches onto tool belts and securely carries two aerosol cans.

APPLICATIONS:

Use MARKING PAINTS on:

- Asphalt
- Concrete
- Gravel
- Dirt
- Grass
- Brick
- Athletic fields
- Utility sites
- Excavation areas
- Surveying sites
- Construction marking

FEATURES	HOW YOU BENEFIT
High pigmented industrial solids	Produces a very bright line - highly visible
Paint filtered through exclusive 50 micron filter	Non-clogging, trouble-free spraying
Fast-Drying, penetrates and adheres to hot surfaces	Long-lasting
VOC compliant - lead-free	Safe for the environment and employees, biodegradable

TECHNICAL HIGHLIGHTS:

High pigmented solids filtered to prevent clogging.
Long-lasting, highly visible, bright colors.
Spray-through cap.
VOC compliant - lead-free.
