

Grip-All 4 ft (1.2 m) with Universal Head

By Chance Lineman Tools & Equipment Catalog # C4030291A

GRIPALL - 4FT 9IN - W/ UNIVERSAL HEAD. The most versatile tool in a lineworker's hands, the Grip-All stick puts an easy-tocontrol "finger" on an insulated pole. Although primarily designed for installing hot-line and grounding clamps, it serves both overhead and underground circuits with various end fittings. Commonly called a "shotgun," the operating mechanism incorporates a sliding hand grip that opens the hook to grasp a clamp eyescrew and retract it into the tool head. A thumb latch then must be depressed to release the locked hand grip so it can open the hook. While the tool head is of Lexan® for closequarter operations, the worker must maintain recommended working distance solely on the Epoxiglas [™] pole section of the handle as the hook and its actuator are metal parts. Easy to care for, Grip-All sticks do not require field stripping to clean. All insulated parts including the operating rod are outside the main pole, readily accessible to wipe dry. CAUTION: Do not clean the plastic head with solvent.

EU RoHS Indicator No

Storage Bag Included? P643-4 (Bag not included. Must

be ordered separately.)
