

# FPX412WOH

by CMC  
Catalog ID: FPX412WOH

Aluminum flat pad extensions, without hardware, 600 V

- Adapters provide the means to connect virtually any required number of conductors to a transformer using NEMA two-hole terminal lugs. Stacking type terminal lugs can also be used where more conductor connections are required than available mounting positions
- Other pad extensions are available. Consult factory
- Supplied with or without hardware (stainless steel studs and flange nuts). Add suffix “WOH” to receive without hardware

## Product Details

### General
