

## PTT POLE TYPE OVERHEAD

- Manufactured from high strength 6061-T6 aluminum alloy use with copper or aluminum conductor
- Rated for 600 volts for reliability
- Range taking for reduced inventory needs
- Clear plated for low contact resistenance
- Meets or exceeds ANSI 119.4 Class A specifications for reliability
- Stud is tin plated copper for low contact resistance for connection to transformer
- PTT Options:
- A Anodized Screw
- B Blind Hole
- D Disc Pad Screw
- 9/16H 9/16 Hex
- P Inhibitor (last position in part number)
- PTT4-500BAPS S Shrink Wrapped Connector
