

# ROADMAX<sup>®</sup> RX1

Evluma's Next Generation Roadway Luminaire  
LED ROADWAY LIGHTING

## Applications:

Residential streets &  
local roadways, parking lots,  
campuses, industrial parks.

**RX1 Wattage Range: 30-100W**

**RX1 Lumen Range: 3,030-13,000 lumens**

RoadMax RX1 delivers high-performance roadway distributions coupled with exceptional glare control. This sleek, utility-grade luminaire is easily configurable to meet a multitude of application requirements.

## Replaces 70W-200W HID

The RoadMax RX1 is a single light engine luminaire with a lumen output ranging from 3,030 – 13,000 lumens and wattages ranging from 30 – 100 watts. Lumen output and wattage can be changed in the field through your choice of optional manual or wireless controls.

## Construction & Finish

Cast aluminum housing with TGIC-free, polyester powder-coat in a variety of colors. Hinged tool-less access panel for wiring access. 2-bolt tenon clamp accepts 2" or 1-1/4" diameter arm. Step adjustment of +/- 5° tilt and integral bubble level built-in. Removable wildlife shield. Coastal version with enhanced hardware available meeting 3000-hour salt spray requirements.

## Thermal Protection

Solid aluminum housing provides excellent passive cooling for all electronics. LED & driver life is ensured by thermal management protection that limits current levels to the LEDs based on system temperature. Luminaire is rated for full performance at -40°C min – 50°C max ambient temperature.

## Lumen Maintenance

L70 (10,000) >55,000  
L90 (10,000) >55,000  
L70 (TM21) >100,000

## LED & Optical

High-efficacy LEDs with color temperature options of 2700 – 5000 Kelvin and CRI > 70. High-performance Type II, III and V primary borosilicate optics rated at IP66. Factory or field-installable secondary lens available on all optics for managing glare while achieving superior pole spacing. All configurations are Zero Uplight (U0 BUG). Field-installable light trespass shields are available.

## Electrical

120-277 VAC 60 Hz auto-adjusting. Driver is Evluma-proprietary Class II with 0-10V ANSI C137.1-2019 (9-Volt). THD < 20% and PF > 0.9. 20kV/10kA surge protection per ANSI C136.2 – 2018 Extreme rating. Three-position terminal block with optional pigtailed. Separate electronics compartment is rated IP66.

## Controls

Dimmable driver. 0-10V interface standard with 7-pin NEMA receptacle option. Manual wattage control (FAO) optional. Dimming minimum to 10% of nominal wattage.

Custom packages include Photocontrol FailSafe™ and compatibility with the Bluetooth BLE ConnectLED™ mobile app. Can be combined with Evluma's integrated photocell, 3-pin, or 7-pin receptacles.

## Warranty

Ten-year warranty.

# ROADMAX

## PRODUCT CONFIGURATIONS

SAMPLE NUMBER: RX1-050C3T2G0-S3HGL2-A0BN

### Lenses

The primary glass RX1 optics are designed to deliver precise, evenly-distributed light with a low veiling luminance for Type II, Type III and Type V distributions.

Choose G1 to add a secondary lens made from a specially formulated LED acrylic for exceptional glare control.

### Photocell Receptacles

All photocell receptacles are rotatable. Wireless photocell not provided.

### Integrated Photocell (P)

Evluma's integrated photocell shortens installation time. This UV-resistant, polycarbonate photocell meets FM 4473 impact resistance.

### Photocontrol Failsafe™ (Failsafe)

Photocontrol Failsafe eliminates the need to replace failed photocells, saving truck-rolls. Combine this patented technology with S3, S7 receptacles or the P option. Packaged with ConnectLED.

### ConnectLED™ (CLED)

Order the RX1 configured for compatibility with Evluma's ConnectLED app.

ConnectLED uses Bluetooth BLE technology to securely control individual luminaires. ConnectLED is available for as an Apple or Android app. Sold separately.

**Field Adjustable Wattage Selector (FAO)** Manually adjust luminaire wattage and lumen output in the field using the FAO. Seven output levels. FAO (AF) combined with S3 is not continuously dimmable. Stepped dimming only.

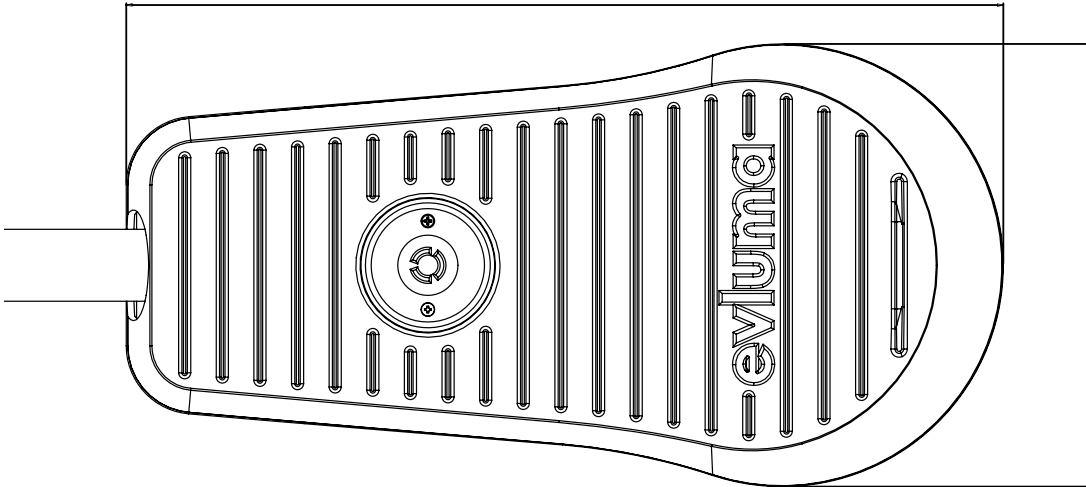

### FAO SETTINGS

SWITCH POSITION	INPUT WATTS MULTIPLIER	DELIVERED LUMENS MULTIPLIER
A	100%	100%
B	89%	91%
C	77%	84%
D	65%	72%
E	54%	61%
F	43%	50%
G	33%	39%
H	23%	28%

Multiply the nominal wattage and/or lumens to arrive at reduced values. Typical accuracy is +/- 10%. Select the A position if using with an S7 receptacle and wireless node.

### DLC 30-100W

Not all product variations listed on this datasheet are DLC qualified. Visit <https://qpl.designlights.org> to confirm qualification.

Any RX1 model with S3, but no FAO (A0) is not qualified under DLC 5.1 as these models are not capable of continuous dimming. Example RX1-XXXXXXXX-S3XXXX-A0XX.

### Dark Sky Approved

Multiple RX1 models have received the IDA Dark Sky Seal of Approval. [darksky.org](http://darksky.org).

Models offered in 3000K (3) or 2700K (7) are IDA approved. All RX1 are U0.

### Community Friendly Lighting (SOLA) Certified

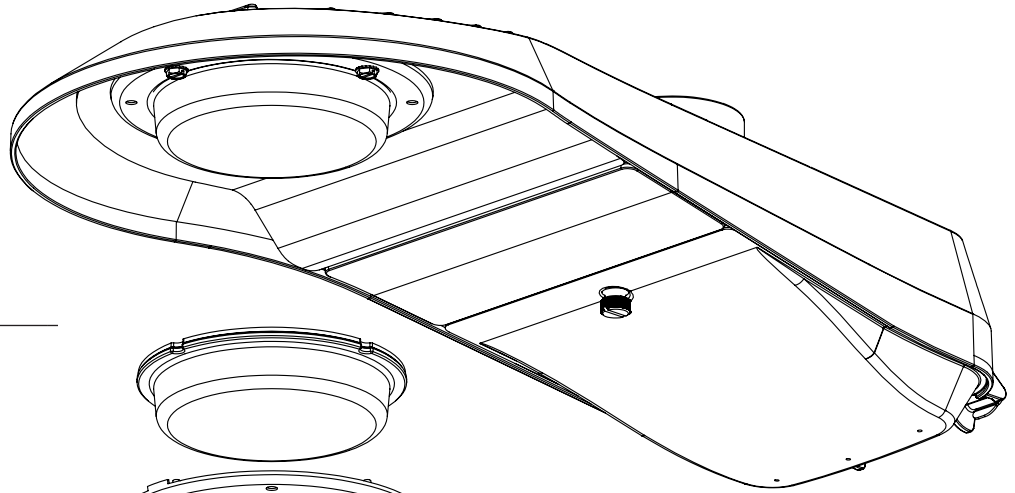

Models offered in 3000K and 2700K measuring U0 are also CFL SOLA Certified. [volt.org](http://volt.org).

# LENS ACCESSORIES

## SECONDARY LENS FOR GLARE CONTROL

Push Veiling Luminance even lower while maintaining competitive pole spacing within RP-8 recommendations.

RX1 can be ordered from the factory with a secondary lens installed for additional glare control, or order separately for installation in the field at a later date.

RX1-LENSG1

Prioritize glare reduction while maintaining high roadway performance.

The glare control lens is made from a specially formulated optical acrylic for use with LEDs. Coastal version available. To order separately see the catalog number below.

FAMILY ID	STYLE	COLOR
RX1	LENSG1 = secondary lens for glare control	HG = standard gray HB = standard black HZ = standard bronze  ZG = coastal gray ZB = coastal black ZZ = coastal bronze

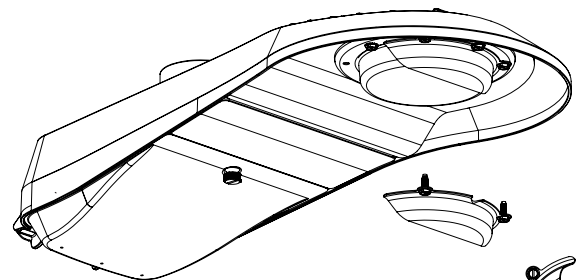

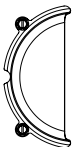

## LIGHT TRESPASS SHIELDS

Reduce light trespass and discomfort glare. Field installable shields can be mounted over primary optic or secondary lens and in any position - front, back or sides. Shields maintain No Uplight (U0) rating and add no additional EPS. Coastal version available.

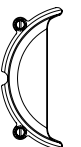

FAMILY ID	STYLE	COLOR
RX1	LTS1 = house-side shield (large) LTS2 = front-side shield (small)	HG = standard gray HB = standard black HZ = standard bronze  ZG = coastal gray ZB = coastal black ZZ = coastal bronze
