

TARPTAINER™

US Patent Pending

MANUFACTURED BY
ANDAX

PART NUMBERS:

TCT-969618-0

TCT-727214-0

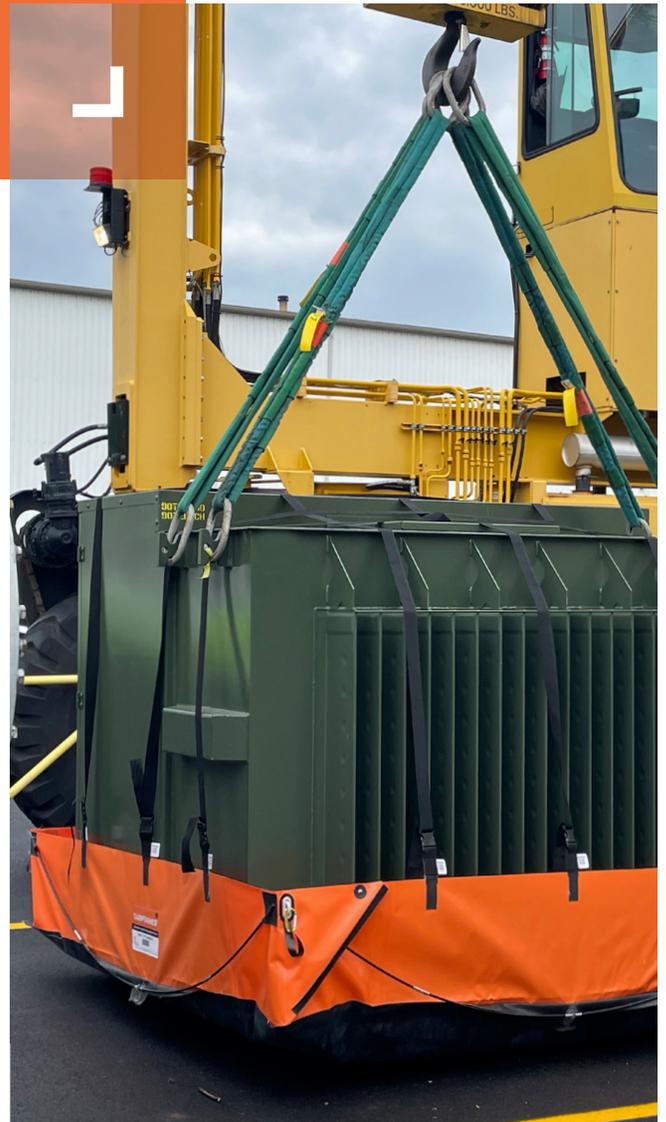

TCT-484810-0

PRODUCT CATEGORY:

Secondary Containment

ZERO-ENTRY HEIGHT CONTAINMENT SYSTEM

The Tarptainer™ is a zero-entry height containment system that fits under a hoisted transformer or equipment with approximately 1" of ground clearance. Its sidewalls stay upright without supports that can cause trip hazards. The Tarptainer™ is easy to setup and provides reliable spill containment and leak prevention.

PRODUCT FEATURES

01 Positive-locking corners for secure containment

02 Up to 96" x 96" area of absorbent material catches residual oil

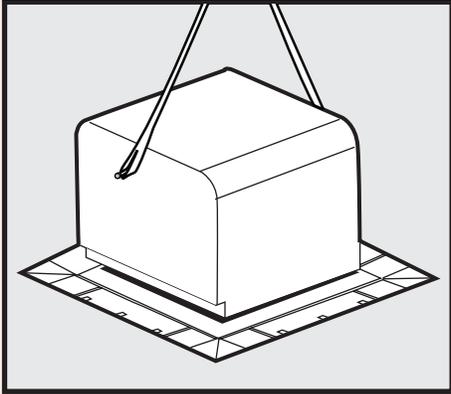

03 Freestanding sidewalls

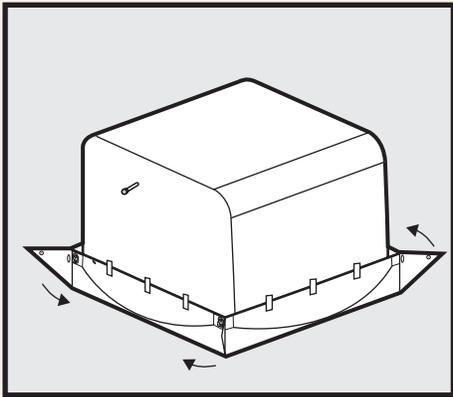

Contact Andax to find a distributor near you 800-999-1358 or sales@andax.com.

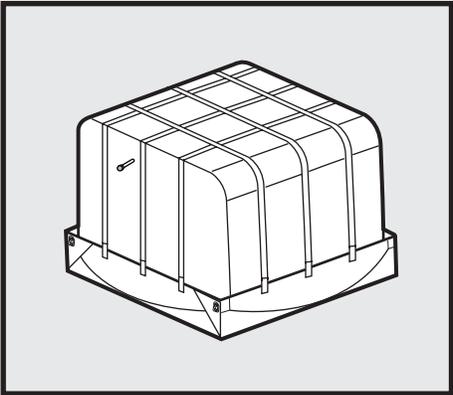

INSTRUCTIONS

With the Tarptainer™ rods in place, ensure the product is flat. Lift the transformer 2-3" off the ground and center the transformer over the white absorbent area before lowering.

Fold up corners, fasten snaps, and lock carabiner clips for a tight, secure fit.

Attach the included straps to the built-in buckles and tighten securely over the transformer.

CUSTOMIZATION AVAILABLE!

From size to packaging, we can provide custom solutions to meet your needs!

Included webbing straps and integrated buckles secure the Tarptainer™ to the transformer or other equipment enabling crews to lift and move the transformer and containment system at the same time.

THREE SIZES AVAILABLE

PART NUMBER	DIMENSIONS
TCT-969618-0	96" X 96" X 18"
TCT-727214-0	72" X 72" X 14"
TCT-484810-0	48" X 48" X 10"

Absorbent area x sidewall height

BENEFITS

- ✔ Ultra-absorbent materials
- ✔ UV-resistant
- ✔ 100% American Made
